## 1. PROJECT GENERAL INFORMATION

Traditional games are games that children use to have fun and that have the particularity of having a very defined structure of rules.

In this way, with the aim that children feel united to Europe, we want all the children of Europe to come together in a common project and learn about the most popular games in each country and discover how they are played.

In this project we want the students learn popular games. The idea of the project that students feel that they belong to Europe and know other types of games and can communicate with children.

So each school will teach a popular game from their country and later they will practice the game they have learnt. So they can discover other types of games.
